## Disclaimer

The Korea Fund, Inc. is a non-diversified, closed-end investment company. The Fund seeks long-term capital appreciation through investing primarily in equity securities trading on the Korean stock exchanges. Its shares are listed on the New York Stock Exchange under the symbol "KF."

Allianz Global Investors U.S. LLC is the Fund's investment manager. Investment in closed-end funds involves risks. Additional risks are associated with international investing, such as currency fluctuation, government regulations, economic changes and differences in liquidity, which may increase the volatility of your investment. Foreign securities markets generally exhibit greater price volatility and are less liquid than the U.S. market. Additionally, this Fund focuses its investments in certain geographical regions, thereby increasing its vulnerability to developments in that region. All of these factors potentially subject the Fund's shares to greater price volatility. The NAV of the Fund will fluctuate with the value of the underlying securities. Closed-end funds trade on their market value, not NAV, and closed-end funds often trade at a discount to their NAV.

The Fund's daily New York Stock Exchange closing market price and NAV per share, as well as other information, including updated portfolio statistics and performance are available at [www.thekoreafund.com](http://www.thekoreafund.com) or by calling the Fund's stockholder servicing agent at (800) 254-5197. Statements made in this release that look forward in time involve risks and uncertainties and are forward looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such risks and uncertainties include, without limitation, the adverse effect from a decline in the securities markets or a decline in the Fund's performance, a general downturn in the economy, competition from other companies, changes in government policy or regulation, inability to attract or retain key employees, inability to implement its operating strategy and/or acquisition strategy, and unforeseen costs and other effects related to legal proceedings or investigations of governmental and self-regulatory organizations.
